Other:

REQUIREMENT HTA/SI/R64/56: Describe reported torpedo test range facilities at Lake Kopen, near Leningrad, USSR.

REMARKS:

Reports of torpedo testing activity at Lake Kopen cannot be confirmed from a study of photography.

On the north shore of Lake Kopen is located the site of the former Kopenskoye Seaplane Station. The two hangars, workshops, barracks and facilities of this seaplane station were destroyed during World War II, and no military activity in this area is apparent from a study of the small scale photography.
